

Earth Of Ours

Music: "Blaenwern" William Penfro Rowlands 1904

Words: Warren Mars 2013-2016

$\text{♩} = 120$

Soprano

1. Earth of ours, how great is thy beau-ty? Spark - ling beaches and ma-jes-tic trees,
 2. Earth of ours, how much do we owe thee? All that we are has come from thee. For
 3. Earth of ours, how much do we need thee? Stap-les of life we take from thee. If

Alto

1. Earth of ours, how great is thy beau-ty? Spark - ling beaches and ma-jes-tic trees,
 2. Earth of ours, how much do we owe thee? All that we are has come from thee. For
 3. Earth of ours, how much do we need thee? Stap-les of life we take from thee. If

Tenor

1. Earth of ours, how great is thy beau-ty? Spark - ling beaches and ma-jes-tic trees,
 2. Earth of ours, how much do we owe thee? All that we are has come from thee. For
 3. Earth of ours, how much do we need thee? Stap-les of life we take from thee. If

Bass

1. Earth of ours, how great is thy beau-ty? Spark - ling beaches and ma-jes-tic trees,
 2. Earth of ours, how much do we owe thee? All that we are has come from thee. For
 3. Earth of ours, how much do we need thee? Stap-les of life we take from thee. If

Piano RH

Piano LH

fer - tile plains and qui - et de - serts, soa - ring mountains and roa - ring seas.
 billions of years this great e - co - system e - volved the pro - fu - sion of all that we see.
 thou shouldst die, then we must die al - so; o - ther pla - nets are not as thee.

fer - tile plains and qui - et de - serts, sea - ring mountains and roa - ring seas.
 billions of years this great e - co - system e - volved the pro - fu - sion of all that we see.
 thou shouldst die, then we must die al - so; o - ther pla - nets are not as thee.

Tour thy pla-net, re - jice in thy mo - ther: wal - king the land and brea - thing free.
 Here we be - long in the world we were born to, here where we have our own place in the stream. With
 We must pro - tect the air and the o - ceans, nur - ture the pla-net that gave us birth.

Tour thy pla-net, re - jice in thy mo - ther: wal - king the land and brea - thing free.
 Here we be - long in the world we were born to, here where we have our own place in the stream. With
 We must pro - tect the air and the o - ceans, nur - ture the pla-net that gave us birth.

Chee-ring dawns and ra - di-ant sun-sets, no - where out - side is as precious as thee.
 flora and fauna that grew up be - side us, here in the bo-som of Arda's great scheme.
 On - ly if we care for our mo - ther, can we ex - pect to find heaven on Earth.

Chee-ring dawns and ra - di-ant sun-sets, no - where out - side is as precious as thee.
 flora and fauna that grew up be - side us, here in the bo-som of Arda's great scheme.
 On - ly if we care for our mo - ther, can we ex - pect to find heaven on Earth.
